Blackwater Medical Centre

Services at Blackwater Medical Centre

At Blackwater Medical Centre, we warmly welcome new patients to access our comprehensive healthcare services. Whether you're an individual or a family, we are here to provide personalised, high-quality care tailored to your needs.

Our Services

Chronic Disease Management Clinics: Diabetes Clinic, Asthma Clinic, COPD Clinic.

Men's Health Clinic

Focused on men's health, offering expert care for routine screenings, prostate health, cardiovascular risk, and lifestyle management.

Women's Health Services

Mirena IUCD Insertion: Effective contraception and treatment for heavy menstrual bleeding.

We provide comprehensive care for family planning, menopause management, and other women's health needs.

Vaccination and Travel Clinic

We provide a full range of routine and travel vaccinations, along with expert guidance for safe international travel.

Minor Surgeries and Dermatology Clinics

Punch Biopsy: For diagnosing skin lesions.

Dermoscopy: Detailed mole and skin lesion examinations for early detection of skin cancer.

Cryotherapy: Treatment for precancerous skin lesions and other skin conditions.

Joint Injections

We offer joint injections for arthritis and soft tissue/tendon problems, providing effective pain relief and improved mobility.

On-Site Dispensary and Community Pharmacist Available

Community Pharmacist Available: Advice on minor illnesses and over-the-counter treatments.

Delivery Service: Convenient prescription delivery for patients.

We are also proud to have specialists in Dermatology, Gynaecology and Chronic Disease Management in our team, ensuring expert care in all of these fields.
